Research & Technologies

Operation

ASD-IMG⁴

The European Aeronautics industry network for R&T

- ASD-IMG⁴ coordinates the manufacturing industry position with regard to the EC Civil Aeronautics Framework Programmes
- ASD-IMG⁴ represents the European Aeronautics Industry through the Industry Management Groups (IMG)

IMG⁴ comprises representation from four groupings :

Euromart IMG *(Airframe)*

| | |
|-----------------------------|--------------|
| Aernnova Aerospace | Airbus SAS |
| Aero Vodochody | Saab AB |
| AgustaWestland | EADS IW. |
| Alenia Aeronautica | EADS MAS |
| AleniaAermacchi | Eurocopter |
| Bombardier Aerospace | PZL-Swidnik |
| Dassault-Aviation | HAI |
| GE Aviation Systems | Latecoere |
| GKN Aerospace Services | RUAG |
| LET Aircraft Industry | Patria Oyj |
| Piaggio Aero Industry | SONACA |
| PZL Mielec | Stork Fokker |
| S.A.B.C.A | |
| AeroPortal, IAI (observers) | |

Engine IMG

AVIO
ITP
MTU Aero Engines
PBS Velká Bíteš
Rolls-Royce
RRD
SNECMA
Techspace Aero
Turbomeca
Volvo Aero
WSK Rzeszow

Equipment IMG

| | |
|------------------------------------|-------------|
| Selex Galileo | Auxitrol |
| BAE systems avionics | Cesa |
| Diehl Aerospace | Dräger AG |
| Hellenic Aerospace Ind. | Fokker-Elmo |
| Liebherr-Aerospace | Sagem |
| Lindenberg GmbH | Selex Comms |
| Messier-Dowty Ltd | Nord-micro |
| Messier-Bugatti | Skysoft |
| GE Aviation Systems | Saab AB |
| Goodrich | Barco |
| Thales Aerospace | Qinetiq |
| Thales avionics electronic systems | |
| ZF Luffahrttechnik GmbH | Megitt |
| INASCO | ISQ |
| Jihostroj | GIFAS |

ATM - IMG

Airbus
Alenia Aeronautica
Bae Systems
Dassault Aviation
EADS
Eurocopter
Selex Galileo
Hellenic Aerospace Ind.
Indra
Raytheon Ltd
Selex Comms
GE Aviation Systems
Selex Sistemi Integrati
Thales Alenia Space
Thales Air Systems
Thales Aerospace

- **Eligible for EC funding**
 - **Undertake research within EU member states**

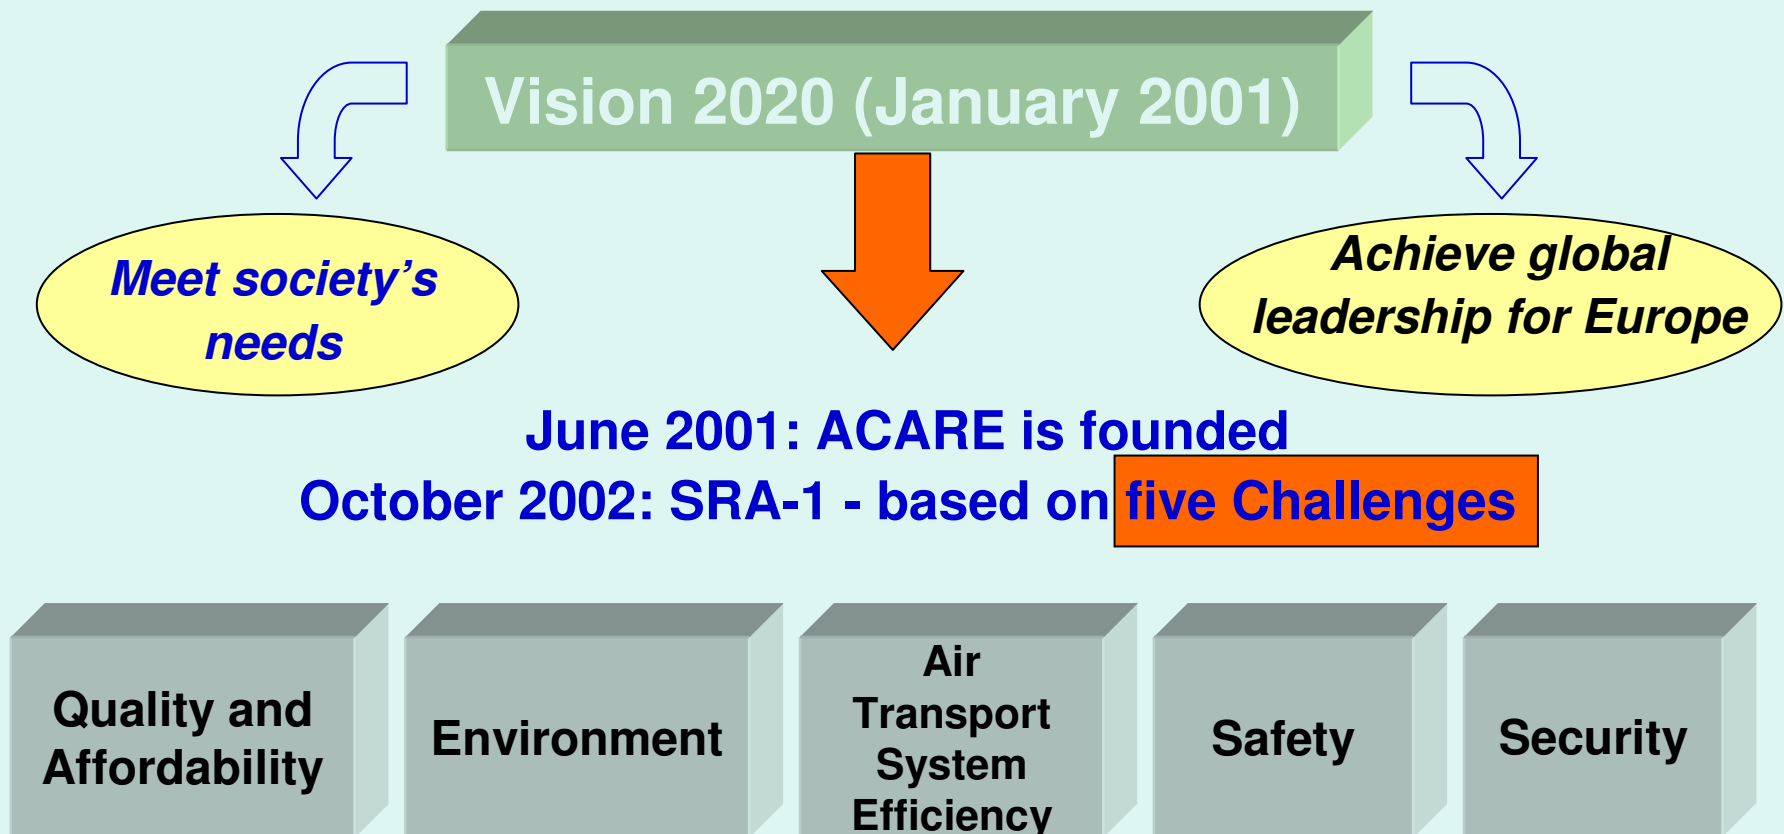

- **Exploitation path for research results within the EU member states**
 - **Have a manufacturing base within the EU member states**

- **Participate in the meetings and the decision making**

- **All IMG activity is self-funded**

ACARE SRA*: The reference

** Advisory Council for Aeronautics Research in Europe
Strategic Research Agenda*

**Quality & Affordability
(Competitiveness)**

■ Challenges

- Halve time to market
- Competitive Supply Chain
- Reducing travel charges

Environment

■ Challenges

- 50% cut in CO₂ emissions
- 80% cut in NO_x emissions
- 50% perceived aircraft noise

**Efficiency of the air
transport system**

■ Challenges

- 3 times increase in traffic
- 99% of all flights within 15 min of timetable

Safety and Security

■ Challenges

- Five-fold reduction in accidents
- Zero successful hijack

The UTMOST priorities

SRA-1 challenges

**Our utmost priorities:
Quality & Affordability → Competitiveness
& Environment**

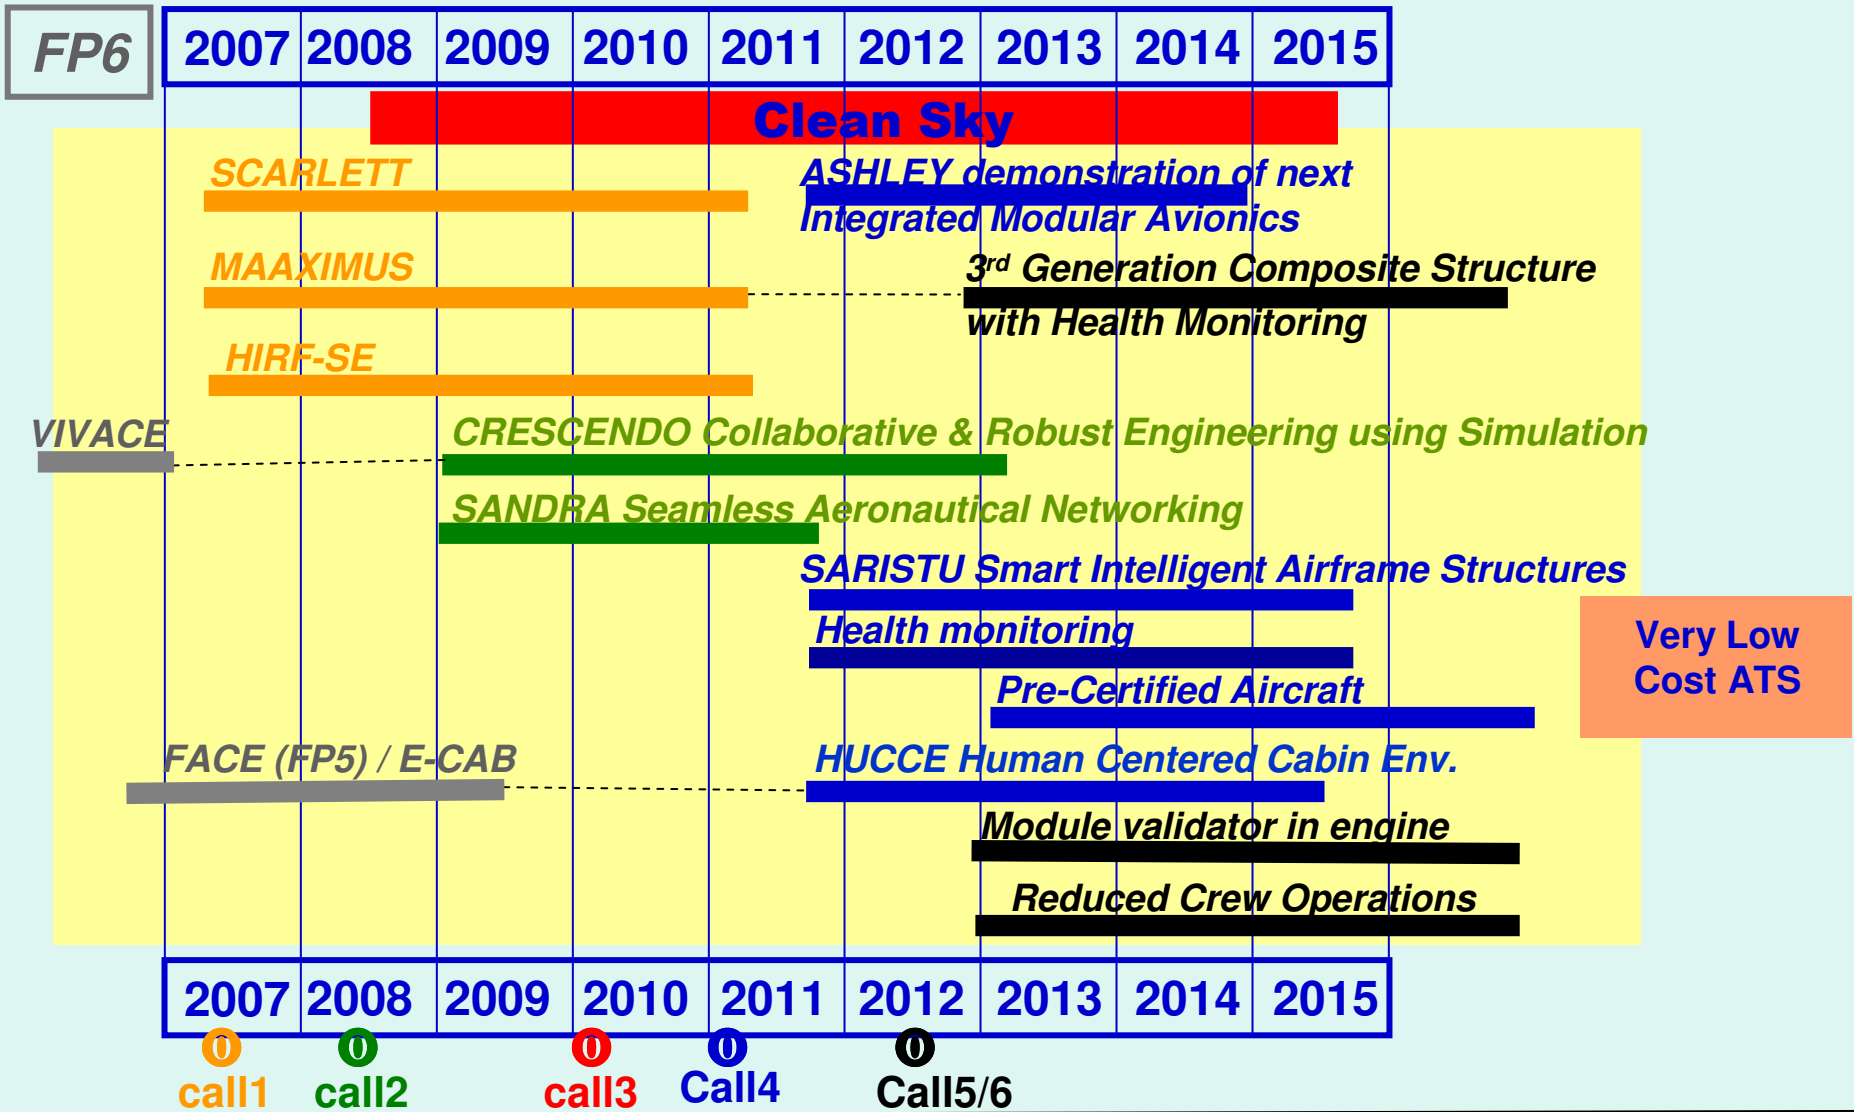

ASD-IMG⁴

Aircraft, Aero Engines, Equipment, ATM**

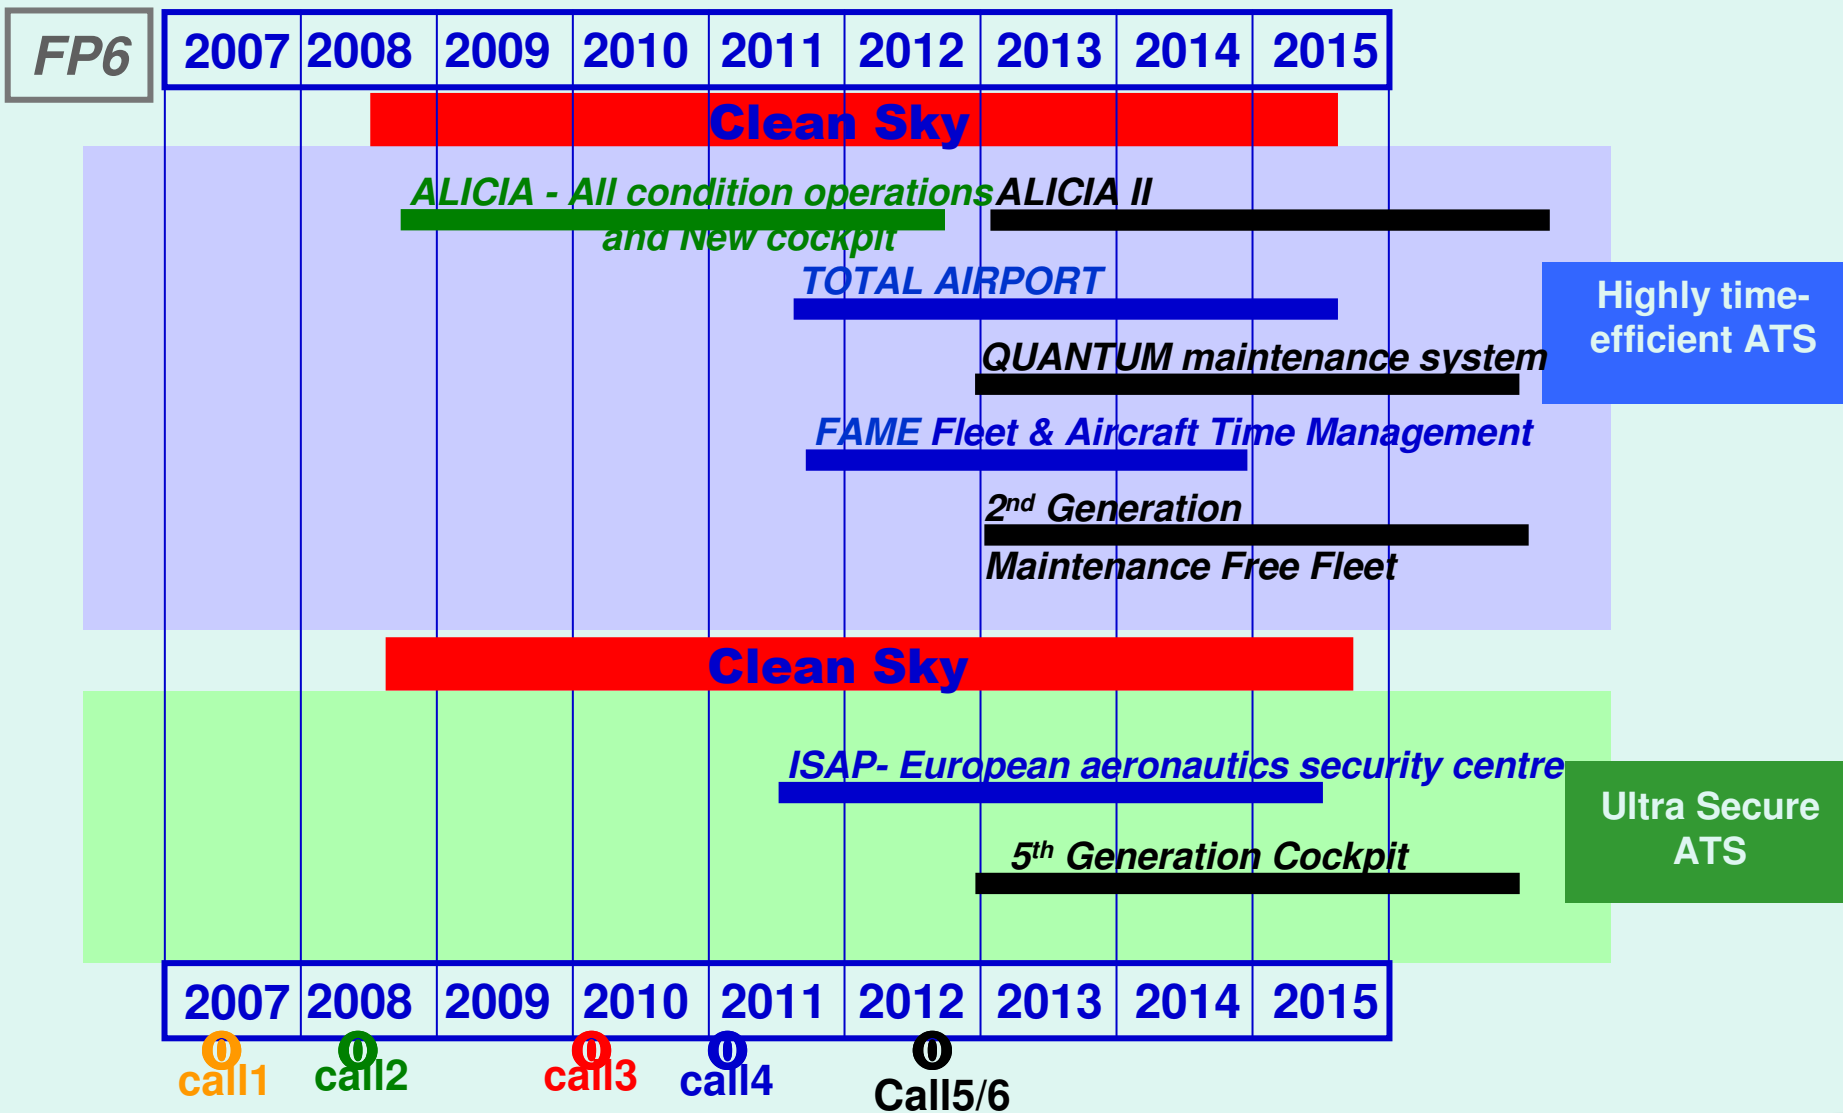

Research & Technologies

Framework 7: Large Projects Road Map

- Each company generates ideas of projects they wish to do and are prepared to lead (bid and manage)
- Each idea is collected by the IMG representing that company (Airframe, engines, equipment, ATM)
- Within each IMG any overlaps, commonality, potential participation and budget can be identified.
- Each IMG presents its list into IMG4
- Within IMG4 overlaps can be identified and additional participation explored
- IMG4 provides the manufacturing industry priorities to the EC
- Discussions with EC to refine the list (sequencing, budget, relation to existing projects, scope, content, ...)

Timeline – Example for Large (L2) projects through EC Processes

- July 2005 – December 2005 – **Each IMG defines its own priorities (projects in outline, leadership, interested companies, ROM budget)**
- December 2005 – **Industry requirements for duration of Framework 7 (2007-2013) set out (projects, interested companies, ROM budgets)**
- January 2006 – **Industry requirements discussed with EC**
- March 2006 – **For each proposed project industry lead partner and interested companies and budget confirmed**
- January - March 2006 – **Prioritised industry requirements for 1st Call finalised (topics, budgets) and presented to EC**
- November 2006 – **Framework 7 1st Call (Work Programme) formally issued**
- May 2007 – **Proposal submitted**
- November 2007 – **Start project**

- To be published in July 2010
- Funding starts 2011
- Budget ~ €140m (€110m for L2 projects)
- Industry (IMG4) plans exceed expected budget so prioritisation is being undertaken during 2009
- Now we discuss with the EC the content of the Work Programme for Call 4
- EC processes require finalisation of industry input before end 2009
